

INDRA

EVERYTHING WATER.

Building **Sustainable** Future

INDRA

EVERYTHING WATER.

50  million liters saved and counting

Our Vision

To drive the world's transition towards sustainable water management.

What We Do

Solving the toughest water & process challenges wherever they occur.

Product

Economical · Compact · Smart

Flow Series (F) · Activated Flow Series (AF) · Electro Series (E)

Decentralized water treatment systems based on patented Electro-Coagulation & Electro-Chemical Oxidation technology for recycling Domestic & Industrial wastewater for reuse in non-potable applications.

Plug and Play
Installation

35% savings
in Life Cycle Costs

75%
Lower Footprint

40% savings
on Opex

Upto 95% Water
Recovery

Chemical Free
Treatment

Module Capacity:
5-200 KLD

Meets CPCB &
STATE Norms

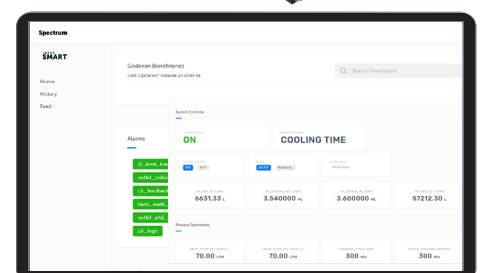

Long life-span
10+ years

Smart Monitoring

Smart is our automation platform which optimizes systems to improve treatment efficiency, consistency and reduces operational costs.

It enables remote system control, fine tuning and real time troubleshooting. **Spectrum** is an advanced analytics platform which provides data driven predictive analysis for better water management.

Software Snapshot

"Pushing the boundaries of automation with Industry 4.0 IoT"

Target Sectors

Residential & Commercial

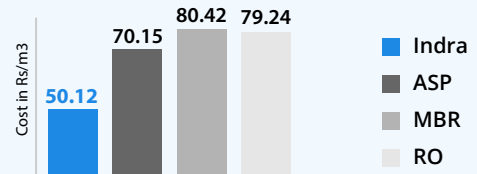

Textiles & Dye

Paper & Pulp

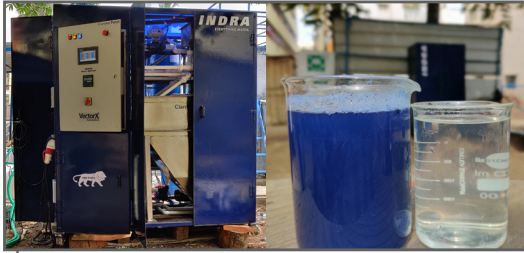

10 Year Life Cycle Cost Comparison
STP (100 KLD)

Sample cost from an Indra project site in Mumbai

Projects

75 KLD Sewage Treatment
Godavari Bio-Refineries Ltd.
Maharashtra, India

15 KLD Effluent Treatment for re-use in Washing Process
Tauruz, Bangalore

10 KLD Textile Dye effluent treatment for process reuse
Sands Synergy Private limited, Mumbai

15 KLD Sewage Treatment for recycling & reuse for gardening
K J Somaiya Campus, Mumbai

15 KLD Dye Effluent Treatment for discharge as per CETP Norms
Sterling Pigments & Chemicals, Vapi, Gujarat

“ We engineer quality with reliable data & robust design”

“ Indra helped us achieve a positive and sustainable water footprint at our Sakarwadi plant. Their compact & decentralized water treatment system is what the industry needs.”

Mr. Sandeep Gupta, Business Head - Chemical Division, Godavari Biorefineries Ltd.

“ We are working with Indra Team on commissioning a 100 KLD ETP at our textile unit in MIDC Rabale, Mumbai. Their technology suits best for the textile industry and we're able to meet reuse and discharge standards successfully.”

Mr. Sanjay Singh, CEO, Sands Synergy Pvt. Ltd.

Clients, Partners & Recognition

WINNERS

Urban Water Challenge 2019 at World Water Week, Stockholm
Imagine H2O, Bluewater Group, 11th Hour Racing

TOP 25 STARTUPS

IIGP 2.0, Industrial Track 2018
DST, Lockheed Martin &
TATA Trusts, New Delhi

WINNERS

Urban Works Innovation Challenge 2019
Columbia University, RMZ Corp, Bangalore

LEADING STARTUP 2018

Digital Disrupt – The New Normal Summit
All India Management Association (AIMA),
Mumbai.
